anhht.mtb@vamaru.edu.vn trantienanhvamaru@gmail.com

Scientific Title: Assistant Professor, Department of Marine Engineering, Vietnam Maritime University, Haiphong City, Vietnam; Researcher at Department of Electrical Engineering, University of Malta, Malta; Postdoctoral researcher at Department of Naval Architecture and Ocean Engineering, Seoul National University (SNU), Seoul, South Korea (October, 2022 – October, 2023); Honorary Professor at School of Computing Science and Engineering, Galgotias University, India and an Honorary Adjunct Professor at School of Computer Science and Engineering, Lovely Professional University (LPU), India; Adjunct Faculty at SIMATS Engineering, Saveetha Institute of Medical and Technical Sciences, Tamilnadu, India.

Studies: 2011-B.Eng; 2014-M.Sc at Vietnam Maritime University, Vietnam. Ph.D. Degree at Wuhan University of Technology, Wuhan, China in 2018

Professional experience: Editor/Guest Editor for Environment, Development and Sustainability, IET Intelligent Transport System, International Journal of Distributed Sensor Networks, Sustainable Computing: Informatics and Systems, International Journal of Renewable Energy Technology, International Journal of Energy Optimization and Engineering, IEEE Internet of Things Magazine, Mathematics. In 2015, he had been awarded the Chinese Government Scholarship (CSC) for the full funding of Doctor of Philosophy (PhD) program in China. In 2019, he had been awarded the NEPTUNE prize for the outstanding researchers by Vietnam Maritime University, In 2022, he is one of five outstanding scientists in Vietnam to be nominated for Ta Quang Buu prize by the National Foundation for Science & Technology Development (NAFOSTED). Additionally, he had been selected and awarded the full scholarship for the Postdoctoral Fellowship Program of National Research Foundation (NRF) for Foreign Researchers by the Government of South Korea.

Key points of interest in research: Electrical Engineering, Naval Architecture and Ocean Engineering, Computing Science and Engineering, Environment, Development and Sustainability, Intelligent Transport System, Renewable Energy Technology.
